

## Benefits and Savings for End-User

### Save money

#### Pay-as-you-go services

All services are available on a monthly subscription basis. For AVG AntiVirus and AVG Content Filtering, you can also choose from monthly, yearly, two-year and three-year subscriptions.

#### No upfront investment

No new hardware or third-party software is required.

#### No license limits

There is no minimum purchase requirement and no license numbers to keep up with.

#### One-click activation

Save money with real-time activation and deactivation of services and devices. When an employee joins or leaves your company, adding or removing their computer is quick and easy.

#### Free 30-day trial

Try the full versions of our AVG AntiVirus and AVG Content Filtering services free for 30 days.

### Stay protected

#### Virus and spam protection

Keep your company's network free from viruses, malware and spam with AVG AntiVirus and AVG AntiSpam.

#### Automatic updates and upgrades

Ensure that your employees' computer protection is always up-to-date. Real-time updates, upgrades, and even uninstalls are automatically pushed to your employees' computers so there's no need to waste time with manual checks.

### Be in control

#### Web-based access

Cloud services can be accessed from any web browser.

#### Multiple alerts

Stay right on top of things with automatic email alerts. Whenever there's an issue, your IT provider will be notified immediately to secure your system.

### Reporting

Quickly review the activity and status of all your devices via multiple reports, including executive summary, security, operational, and content filtering reports—all of which can be exported to PDF. Reports can be tailored to show virus and malware detections, devices requiring RAM or storage updates, blocked URLs, etc.

### Remote management

AVG CloudCare's web-based platform gives your IT provider a real-time overview of your network, allowing them to remotely manage your services and devices from a single location. They can also view content filtering graphs; create groups and policies; receive real-time alerts; and add or remove services or software with a single click—all without distracting you or your employees.

## Improve efficiency

### Fast, flexible, and accurate content filtering

Block inappropriate and distracting websites to boost employee productivity, or allow your employees access to sites like Facebook® only during specific times, such as their lunch break. Policies make granting and revoking access to multiple sites simple and fast.

### Third-party antivirus removal

Save time by deploying AVG AntiVirus and removing third-party antivirus products in one click.

### Customized installation

Choose only the components you want: Email Scanner, Online Shield, AVG Surf-Shield or Firewall.

### Easy policy deployment

Roll out pre-set or customized policies to employees in real time to save your IT provider the hassle of doing this for every individual computer.

When simplifying your IT management can be this simple... Why complicate?
